PRO TIPS FOR EXPERT SURGICAL MASK SKILLS

- Clean hands before & after touching MASK
- MASK should always cover nose and chin
- Wear inside facing you and metal piece pressed onto nose bridge
- Avoid touching MASK
- Remove & store MASK before eating or drinking
- MASK should not hang on one ear, hang around neck or be pushed to forehead
- Discard if MASK becomes wet or soiled
- Store MASK safely if planned for re-use during shift
- Discard MASK when leaving building for the day
